**概要** This course in business English is for intermediate to advanced level students. Each semester we will focus on improving language skills through discussing a business topic. At the beginning of each semester we will talk about topics we would like to concentrate on. Typical topics are negotiation skills, presentation skills, marketing and meeting etiquette. The teacher will also provide photocopies, taken from a range of sources, and each week there will be a choice of current newspaper articles to be studied for the following week.
